

Ischemic Stroke in the Young- A Global Perspective

Dr Jeyaraj D Pandian MD DM FRACP FRCP FESO FWSO
FNAMS

Principal/Dean, Professor of Neurology,
Vice-President, World Stroke Organisation
Christian Medical College, Ludhiana, Punjab India

Disclosure

- Received funding for stroke epidemiology research from Indian Council of Medical Research

Learning Objectives

At the end of the session the participant:

- **Should be able to appraise the global burden of stroke in the young**
- **Should be able to list the causes of stroke in the young**
- **Should be able to evaluate a patient appropriately**
- **Should be able to apply the algorithm for accurate diagnosis**

Key messages

- **The global burden of stroke in the young is high**
- **There are various etiologies for stroke in the young**
- **Some of the etiologies are specifically seen in low- and middle-income countries**
- **Careful evaluation is needed for accurate diagnosis and management**
